Successful Return Home

Melvin Whittet successfully completed his therapy program on Friday, Sept 22 and was able to safely return home to his wife of 66 years. Melvin and his wife chose Stearns for his rehab stay following a hospitalization after suffering a CVA. His therapy program consisted of Physical, Occupational and Speech therapy. Melvin and his wife were thankful for the therapy team and everything they did to get Melvin back home. "I couldn't have made the progress I did without John and Jenni, two of my therapists," said Melvin.
